

Sustainability Statement

At Pi-Building &, sustainability is one of the fundamental values that influences every aspect of our work, and how we deliver services to customers, businesses and to the community. This commitment is core to our practices, belief, and is embraced by the sustainable development conscious companies we collaborate with.

Our Commitment: As a forward-thinking business, we take immense pride in delivering integrated building solutions and services that align with our sustainability principles. Our goal is to reduce our environmental impact through intelligent building technology, design, services and optimised efficiency practices across all our operations.

Innovative Solutions: Our expertise encompasses building advisory, consulting, project turnkey services, eco houses, prefab houses, renewable energy (PV) systems, energy storage, EV charging, building maintenance, smart building technology, and robotics solutions. By leveraging smart technologies and intelligent systems, we aim to assist customers, businesses and the community to reduce building waste, lower energy consumption, and enhance building performance.

Global Responsibility: we are committed to be actively participating in global initiatives such as the United Nations (UN) Global Compact. We integrate its principles into our strategy, culture, and operations, and foster partnerships to drive meaningful contributions toward these goals.

Guided by Core Values: we are guided by values - Progress, Respect, Integrity, Drive, and Excellence (PRIDE). We actively contribute to minimise environmental footprint and pursue sustainability in the short, medium, and long term.

Inclusive Environment: We are committed to fostering an inclusive environment where individuals feel valued, safe, and empowered to perform at their best. We prioritize health and safety, promote social responsibility, and respect the stakeholders, local cultures, and customs of the communities we serve.

At Pi-Building &, we believe in demonstrating our commitment to sustainability through our actions. By choosing Pi-Building &, you are investing in quality services, sustainable solutions that contribute to a resilient and sustainable future for the community. Together, we can build a better future.
